

SMARTIE PANTS PARENT COMMITTEE AGENDA

Meeting 28/4/2007

1. Present:
2. Apologies: Rebecca Skabar, Dannielle Rowe
3. Confirmation of Minutes: 31st March 2007
4. Actions from Previous Minutes:
5. Matters requiring further discussion/decision
 - 5.1 **Sonia**- Paint and clothes washing....I've mentioned this to Sharon previously but the paint really does not come out of the clothes and the stuff they used to buy did. Can we ask if it's possible for them to change back?

Weather and adequate clothes - with the on/off weather the carers really need to be adding or taking off according to the weather. This is still not happening. Also water not available on warmer afternoons when playing in separate yards, only when they come together at end of day

Security - kids from kinder room (and other rooms) sometimes going out of room/ from yard back to room without carers noticing. Worries me that if a parent let this kid slip out the door they are straight into car-park - has SP considered gating the front veranda as per most other centres that I've seen???

- 5.2 **Emma**- Discuss the possibility of a child proof fence and gate around the front veranda area. Help ensure that no littlies can escape out the front door and straight into the car parking area.

Should the parents that have not been coming to meeting be followed up and asked if they still want to contribute? Actively ask some new parents onto the committee. New people = New ideas. Also I don't think the baby's room is represented by a parent on the PC.

- 5.3 **Dannielle**- The issue of Incident reports not being written up, on the day, or even once parent has noticed cut lip and requested incident report for future reference, not being done. (A parent asked me to raise point).
I read Nappy policy and agree, and am happy with procedure, as Declan has now completed toilet training with no drama's from the centre.
